SUB: INTERNSHIP COMPLETION LETTER

We are glad to inform you that **Mr. Ayush Sharma** from **The LNM Institute of Information Technology, Jaipur** has successfully completed his internship at Eagleview from **02 Jan 2023 - 26 Jul 2023**.

Ayush has gained valuable experience and skills in various areas during his internship. Here's a breakdown of his work in each of the mentioned areas:

Golang Development:

Ayush has worked with the Go programming language, focusing on various aspects such as Go syntax, creating RESTful APIs, and understanding concurrency. He also has experience in writing tests, handling errors effectively, and improving code readability by reducing complexity.

React Technology:

Ayush has demonstrated his proficiency in creating dynamic and responsive User Interfaces (UIs) using React. He is familiar with state management concepts and libraries like that help manage the state within a React application.

DevOps and Automation:

Ayush has gained knowledge in setting up Continuous Integration and Continuous Deployment (CI/CD) processes using GitHub Actions. He's also experienced in configuring Jenkins, setting up jobs, and utilizing plugins to automate various development tasks. Furthermore, his familiarity with Docker and Docker Compose shows his understanding of containerization for application deployment and management.

AWS Services:

Ayush has a grasp of Amazon Web Services (AWS), particularly in using AWS SQS (Simple Queue Service) for message queuing. He knows how to set up queues and manage the sending and receiving of messages, which is essential for building distributed and asynchronous systems.

Karnataka, India, 560103

DynamoDB:

Ayush has worked with AWS DynamoDB, a NoSQL database service. He's skilled in setting up DynamoDB tables, querying data, and understanding data modeling principles. This experience indicates his ability to work with non-relational databases and handle their unique characteristics effectively.

Overall, Ayush's internship has provided him with a diverse skill set that spans software development (both backend and frontend), DevOps practices, cloud services, and database management. This well-rounded experience could make him a valuable asset to teams looking for someone with expertise in these areas.

His association with us was very fruitful and we wish him all the best in his future endeavors.
