Dear Students,

Greetings,

We're thrilled to bring you exciting updates from our recent events and provide a sneak peek into the incredible journey that lies ahead!

The response to our initial introductory event and the exhilarating Code Hunt challenge has warmed our hearts immensely. Your unwavering passion for technology and innovation is truly inspiring and drives us to do more.

As we venture further into the semester, we are excited to introduce a series of dynamic hackathons and workshops as a part of our effort to find the best minds on campus for our much anticipated Mega Project, from web development and ethical hacking to robotics and embedded system to rocket modeling and product designing, we have got you covered! Be prepared to immerse yourselves in an exceptional experience that will not only challenge your creativity, technical skills, and teamwork but also reshape your perception of your own capabilities.

IEEE REFINE series of events start from our very first Hackathon cum web development workshop. Get ready to embark on a captivating journey into the world of web development, where innovation knows no bounds.

To ensure that you are well-equipped for the hackathon, we have lined up an engaging three-day web development workshop. This workshop will provide you with the tools and knowledge needed to excel during the hackathon and beyond.

Remember to keep a close eye on your inbox for further details about registration, event information, and thrilling updates. And mark your calendars - the first hackathon is scheduled for **11th September 202**3.

Hope to see you there!

Warm regards
IEEE SB LNMIIT

Dear Students,

Greetings,

We anticipate that you have already noted the dates for the upcoming hackathon. This is to give you more information about our three-day workshop/hackathon.

For both the Y'22 and Y'23 batches, a workshop will be held. While others will be asked to improve their abilities through the workshop and assignments given to them, those who are familiar with the tech stack required for web development can register your teams on the same day and begin working on the problem statement.

As an expression of our gratitude for your continuous support and enthusiastic participation, we have prepared exciting surprises and goodies along with assured certificates for the participants. The winners of these series of hackathons will receive certificates and goodies along with generous cash prices like never before.

So what's the wait for? Join us to learn and grow while having fun all along!

Warm regards,
IEEE SB LNMIIT

Good Afternoon.
I have a few queries regarding the hackathon
1)What will be the size of the team?
2)What are the problem statements, will it be given on final day?
Thank you.

Dear Students,

Greetings,

As the countdown starts for the hackathon, we hope you guys are as excited about the hackathon as we are! Due to popular demand from your side, the participation will now be in teams of 3 members each.

The registration form will be released in the LT itself after all the problem statements are released and an overview is provided for your full understanding.
Our motto here is to not only create an awesome learning environment but also to test you on your problem-solving and teamwork abilities. Winning teams will have a chance to be directly recruited into the Mega Project team.

Best of luck!

Warm regards,

Dear All,

"In the world of technology, the only constant is change. Our winners have not just embraced change; they've driven it with their innovative solutions. Let them be an inspiration to all."

We hope this message finds you well. We are excited to announce the results of our Web Development Hackathon that was held in the month of September, and we want to thank all of you for your incredible efforts and contributions to the event. We received an impressive number of outstanding submissions, making the judging process both challenging and rewarding.

We're proud to see such diversity in your projects, showcasing your creativity, problem-solving skills, and your passion for web development.
Now, without further ado, here are the results:

Winner: Buidlers (Harsh Batra (22ume016), Krishna Khattri (22ucs110))
1st Runner up: Justify-Content (Dhruv Chandak (22ucs067), Aditya Choudhary(22dcs002), Gaurav Sharma(22ucs075))
2nd Runner up: Spiderweb (Vishal Aggarwal(22ucs228), Mitali Manya(22uec081), Prachi Goyal(22ucc075))

Congratulations to all the winners! Your hard work, dedication, and innovative ideas have not gone unnoticed, and you should be incredibly proud of your achievements. remember, this is just the beginning. The knowledge and experience gained from this hackathon are invaluable, and we encourage all participants to keep honing their skills.

To all participants, we would like to offer our heartfelt thanks for participating in the hackathon. Your commitment to learning and pushing the boundaries is commendable. We hope to see you in our future events.
For the winners, we will be in touch soon to discuss the delivery of your prizes.

Best Regards,
